Election/Restrictions

Claim 15 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 17, and 20-23, directed to the species of II (figure 2) are no longer withdrawn from consideration since all of the claims to this species depend from or otherwise include each of the limitations of an allowed generic claim.

Claims 1-14 are allowable since the restriction has been withdrawn since the independent method claims include the generic and allowable subject matter.

In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

REASONS FOR ALLOWANCE

further in combination with the plunger tip occluding the vent in the movable seal when the plunger is seated within the plunger tip pocket.

Marzolf et al. does not anticipate the claims since the mechanical relationship of the plunger tip and the vent hole of the movable seal occlude the vent hole wherein in Marzolf et al. a chemical reaction alone or in combination with the thread causes the vent to seal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
